

What You Want

The Baseballs

If you want a man to sweep you off your feet
Or take you out to fancy restaurants to eat
Then I guess I ain't the one you're looking for
If you're scared of a wild one walking through your door

'Cause I'm the shot of Jack that you needed
And I - You can take it or leave it
'Cause I - About time that you see that
I got what you want
Got what you want
Got what you want

I got an iPod full of rock and roll
And I gots no education but I do got soul
I never got nowhere without a fight - oh no
You'll be shaking at the knees from me tonight
That's right!

'Cause I'm the shot of Jack that you needed
And I - You can drink it or leave it
'Cause I - About time that you see that
I got what you want
Got what you want
Got what you want

I show you how good a bad boy can be
If you just wait here for me
'Cause good girls don't come easy

What is that?
Is that a manbone?
Ok... well I mean...
It's quite nice
I think I love it

'Cause I'm the shot of Jack that you needed
And I - You can take it or leave it
'Cause I - About time that you see that
I got what you want

'Cause I'm the shot of liquor that you needed
And I - You can drink it or leave it
'Cause I - About time that you see that
I got what you want
Got waht you want
Got what you want
Uh yeah
