

# Memory Lane

## The Basics

You and I  
Were once in love  
And not the kind you stumble on  
The circumstance would have its way  
Separation with the day  
(Memory lane, memory lane)

Yeah, you said that you had changed  
And that things could never be the same  
The chance we had is too far gone  
And now you're happy on your own

I must say that yes, I agree  
That I could see things work out differently  
(Memory lane, memory lane)  
(Memory lane, memory lane)

Memory lane, memory lane  
And it's me and you  
Memory lane, I'm in memory lane  
You should be here too

Memory lane, memory lane  
Running through my brain  
Why don't you love me like I know that you can  
I'll say it again, it doesn't have to be a memory lane

I can't say that it would work  
With life they say that trying never hurts  
'Cause life's too short to say you can't  
And love deserves a second chance

I know that you probably don't agree  
But please look at the possibilities  
(Of memory lane, memory lane)  
(Memory lane, memory lane)

Memory lane, memory lane  
And it's me and you  
Memory lane, I'm in memory lane  
You should be here too

Memory lane, memory lane  
Running through my brain  
Why don't you love me like I know that you can  
I'll say it again, it doesn't have to be a memory lane

And it's me and you  
Memory lane, I'm in memory lane  
You should be here too

Memory lane, memory lane  
Running through my brain  
Why don't you love me like I know that you can  
I'll say it again, it doesn't have to be a memory lane

I'll say it again, it doesn't have to be a memory lane

I'll say it again...
