

Lucy Is Back

The Bates

This old dirty place
I remember it well
Was like in heaven
And sometimes like hell
You have left without a trace
But I always remember your face
You have left us
Yes, you've left us
All on your own
That's what we fought but

Lucy is back
War nie wirklich weg
Lucy is back
On the track

I'm not alone
We all miss you so much
We need you attention
Your sweet comfort touch
You have left without a trace
But I always remember your face
You have left us
Yes, you've left us
All on your own
But we we're wrong, 'cause

Lucy is back
War nie wirklich weg
Lucy is back
On the track
