

Bad Behaviour

The Beaches

Her curse words in Russian
All the sultry discussions
When I French-kissed her cousin
Crush caviar in the closet
There's parties in condos
(You used to stay up all night)
Assholes from Mississauga
(You used to pick all the fights)
I miss the boy who we loved
(You used to share who you liked)
Getting away from the cops
(You used to do what you liked)

Talking for hours, running around when you're young when you're
young
The bad behaviour, just hanging out when you're young when you'
re young

Said she was tired of stayin' up getting wired
Now she lives in Berlin with Steampunk Italians
There's raves in warehouses (You used to stay up all night)
Graffiti-ing bridges (You never did what was right)
Your stick and poke tattoos (You used to do what you liked)
Just having stuff to do (You always did what you liked)

Talking for hours, running around when you're young when you're
