

Fascination

The Beaches

I took the metro to the station
Where I met you hope to accidentally
Run into you again
And all those people
In those crowded spaces
With their sleepy empty faces
I felt like an alien

I saw you standing like a statue in the corner
And you were all alone
Girl like a Michelangelo
We hoped on to the train without a ticket
Headed somewhere
Didn't matter if we had no other place to go

It's just my fascination
Don't need a destination
It's just my fascination
I never felt so beautiful

We'll drink some whiskey hid behind the bar
Watch film noir inside the catacombs
Cause there's a cat to find lined up
We'll shave each other's hair
Cause you got lice and I wanted mine to look like yours
All buzzed and short and its messed up

It's just my fascination
Don't need a destination
It's just my fascination
I never felt so beautiful

Na na na...

I'll take your kiss
Just like the souvenir
The memories might end up hazy
But I'll try not to forget your face
And when you've grown up and get married and you have a daughter
I hope you consider naming her after me

It's just a fascination
Don't need a destination
It's just my fascination
I never felt so beautiful

Na na na...
