

# Last Girls At The Party

The Beaches

Gonna be the last girls at the party

I'm not gonna slow down  
I'll never look as hot as I do now  
'Cause I don't wanna miss out  
As I pick myself up off the ground

Everyone's gone home  
The lights are turning low

No hard feelings, we're not leaving  
While you're sleeping, we're not leaving  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party

I might need a smoke break  
'Cause you miss out on the shots that you don't take  
And if you don't think straight  
It's your lucky day I'm open late  
So great

Everyone's gone home  
The lights are turning low

No hard feelings, we're not leaving  
While you're sleeping, we're not leaving  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party

I don't wanna go home  
But we should, at some point  
It's only one, right?  
I don't wanna go home  
We should  
There's so many hot girls here  
It's only two, right?  
It's only three, right?  
It's only four, right?  
It's only five, right?  
It's only six, right?  
It's only seven, right?  
It's only eight, right?  
Gonna be the last girls at the party

No hard feelings, we're not leaving  
While you're sleeping, we're not leaving  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party

Oh  
Oh

Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party  
Gonna be the last girls at the party
