

Let Me Touch

The Beaches

He comes alive, we fall apart
They run away, he gets to start
We make a move, he'll make a mark
I just wanna look, I just wanna look at him

He shapes the scene, he brings me back
To when I was young when I was fast
To when I was burned when I was trashed
I just wanna touch, I just wanna be with him

He stays awake, he takes the room
Skates on the sun, lies on the moon
Look right away, he's leaving soon
I just wanna get, I just wanna go through him

A golden age projection
A face against the wall
Let me touch
A woo a woo hey!

The greatest imitator
The one that tricked us all
Let me touch
A woo a woo hey!

He always says just what he means
He never looks before he leaps
I'm on my way, he's on the screen
Everybody's got, everybody just gets him

He grabbed my hand, he made me think
That I was in pretty in pink
But I'm just a girl, I'm not a thing
I just wanna get, I just wanna go through him

A golden age projection
A face against the wall
Let me touch
A woo a woo hey!

The greatest imitator
The one that tricked us all
Let me touch
A woo a woo hey!

Pretty in pink, pretty in pink, I'm just a girl I'm not a thing
Pretty in pink, pretty in pink, I'm just a girl I'm not a thing
Pretty in pink, pretty in pink, I'm just a girl I'm not a thing
Pretty in pink, pretty in pink, I'm just a girl I'm not a thing
I'm just a girl I'm not a thing

A golden age projection
A face against the wall
Let me touch
A woo a woo hey!

The greatest imitator

The one that tricked us all
Let me touch
A woo a woo
A woo a woo hey!
