

## Let's Go

### The Beaches

I'm just a girl who used to loaf at a Toronto art school  
Skipped college, joined a band, made out with boys I liked to talk to  
They told me to turn myself into another indie pop star  
F that I'm just gonna be me they can be whatever they are

Boys in the band, just like their dads, give us advice on punk rock  
Said we'd do better if we quit writing about all the "girl stuff"  
Gonna play the Pontiac, the Roseland, and the Bovine Sex Club  
Then we'll be coming back I wanna see everyone put their hands up
