

Moment

The Beaches

They tried to take me out of the moment
They tried to take me back to my boyfriend
Said honey you're sublime if only you'd respect yourself sometimes
Get help go home get under your boyfriend

'Cause don't you know, don't you know

That it's alright
Livin' in the moment
I'm sunshine
I'm open and I'm broken
And I'm just fine
Every single moment
When you feel it you don't wanna miss out on the moment, on the moment

Smirnoff and saltines under the station
My legs are stronger when they are shakin'
Fevered visions of my life, colour me in all your fire
Leave me alone with my reputation

'Cause don't you know, don't you know

That it's alright
Livin' in the moment
I'm sunshine
I'm open and I'm broken
And I'm just fine
Every single moment
When you feel it you don't wanna miss out on the moment, on the moment

'Cause it's alright
Livin' in the moment
I'm sunshine
I'm open and I'm broken
And I'm just fine
Every single moment
When you feel it you don't wanna miss out on the moment, on the moment
You don't wanna miss out on the moment, on the moment
