

## Slow Mo

The Beaches

Another day afraid to wake up and have a hole in my heart  
Hold my breath, don't want to break it before it even starts  
Your hotel is far away, I miss your face and I can't wait for you I can't wait for you  
Close my eyes and drift away what can you do cuz I can't wait for you, I can't wait for you

Calls me from the road to ask me how's it goin' I wish I was around so I could take you home  
He's whisperin' my name into an empty space hoping that I'll hear him when he says  
"I wish we were alone, oh-oh  
We'd be taking off our clothes, oh-oh  
If we were alone, oh-oh  
We'd be taking off our clothes"  
Play it back in slo-mo

Long hair in knots, spread on the bed sheet and I don't wanna get up  
Like you a lot, it's kind of scary when you can lose what you want  
Your hotel is far away, I miss your face and I can't wait for you I can't wait for you  
Close my eyes and drift away what can you do cuz I can't wait for you, I can't wait for you

Calls me from the road to ask me how's it goin' I wish I was around so I could take you home  
He's whisperin' my name into an empty space hoping that I'll hear him when he says  
"I wish we were alone, oh-oh  
We'd be taking off our clothes, oh-oh  
If we were alone, oh-oh  
We'd be taking off our clothes"  
Play it back in slo-mo

Go slow  
Go slow  
Go slow  
Go slow  
Go slow  
Now we're messing up the sheets  
Go slow  
I'm unzipping your jeans  
Go slow  
You're pushin' up my skirt  
Go slow  
Now I'm taking off your shirt  
Go slow  
My lipstick on your teeth  
Go slow  
Uh

He calls me from the road to ask me how's it goin' I wish I was around so I could take you home  
He's whisperin' my name into an empty space hoping that I'll hear him when he says  
"I wish we were alone, oh-oh  
We'd be taking off our clothes, oh-oh

If we were alone, oh-oh  
We'd be taking off our clothes"  
Play it back in slo-mo

Nebraska to Philly, Manchester, Saint John  
Wherever you are oh it won't be so long  
Montana to Denver, Vancouver, New York  
Wherever you are oh it won't be so long
