

## From the well

The Bear Quartet

Drinking water  
From the well  
Drinking water  
From the well

Lost for words for days  
No options but to stay  
Can't do much else  
I somehow lost track  
Now I can't find  
My way back

Drinking water  
From the well  
Drinking water  
From the well

A western trauma  
Always caught in-between  
Plenty and more  
Enough for the fare  
To get out of here  
But I don't know where

Drinking water  
From the well  
I am ok  
But not well

Who owns the well?  
Who owns the well?  
Who owns the well, well?  
Who owns the well, well?  
Well, well, well?
