

## I Can Wait

The Bear Quartet

I can wait  
For as long as it takes  
I beleive we, humanity  
Can cope without you  
Prove me wrong if you can

You say the check's in the mail  
I hope it's not to late  
Food, food must be paid  
And put on the table

I was just passing by  
Two lovers entwined  
Hearts, hearts instead of wallets  
The left side is the right side

You can can't keep us down  
The left side is the right side
