

I Can Wait

The Bear Quartet

I can wait
For as long as it takes
I believe we, humanity
Can cope without you
Prove me wrong if you can

You say the check's in the mail
I hope it's not too late
Food, food must be paid
And put on the table

I was just passing by
Two lovers entwined
Hearts, hearts instead of wallets
The left side is the right side

You can't keep us down
The left side is the right side
