

I Have An Itch

The Bear Quartet

Gracious god you're dope
I really hope
We get going together
Be bad but better never

Lies
Can pull your pants
Down from behind
Fuck you up
Scarred for life

I have an itch
Triggered by glitch
I have an itch
Triggered by glitch
I have an itch
Triggered by glitch

Your fingers play the keyboard
Compute my so-not washboard

Lies
Can pull your pants
Down from behind
Fuck you up
Scarred for life

Lies
Can pull your pants
Down from behind
Fuck you up
Scarred for life
