

# Leave Me Alone

The Bear Quartet

In case you still want to come  
The roads are snowed in  
And you can't fly in

I heard the fog  
Shut the airport down  
And there was a major bug  
In the computer

Perhaps you should rethink  
Perhaps

I like you on the verge of more  
But I'd rather dream of you  
Than actually be with you

Do you know what I mean  
Do you know  
Do you know
