

Let's Love

The Bear Quartet

Let's care, let's be kind
We're closing the shop
So while there still is time

Let us prepare
To go over there
Or where ever else
There must be a place
Where there is peace
Quiet and calm

Let's love
Let's be friends
The end is nigh
This shithouse will end in flames

Let us prepare
To go over there
Or where ever else
There must be a place
Where there is peace
Quiet and calm

Love, love, love
Love, love, love
Love, love, love
Love, love, love
