

Left Foot Stepdown

The Bees

I tremble down, if your love
Crumbles down for my love
The pressure's down when your love
Lifts me to the moon like a dove

When your feelings get put to the ground, you can do the left foot stepdown
Do yourself some right
If you're being held back with the crowd, you can do the left foot stepdown
Do yourself some right

The word is love, when your life
Needs to be full of light
And when the sun meets the night
Prepare yourself for the world and the fight

When your feelings get put to the ground, you can do the left foot stepdown
Do yourself some right
If you're being held back with the crowd, you can do the left foot stepdown
Do yourself some right

Now you found out your sound
Don't be too proud to turn around
Don't let it pass, it's here to last
Raise it up like a flag on the mast

When your feelings get put to the ground, you can do the left foot stepdown
Do yourself some right
If you're being held back with the crowd, you can do the left foot stepdown
Do yourself some right
