

## Silver Line

The Bees

If I listen to the words that you choose you find your reason to  
be blue  
If I listen to the words you choose your only reason will be you  
You'll find your reason to be blue

You picked the wrong time  
I'm on the silver line  
I'm not hanging around

There's a natural distance with us there's an actual feeling we  
trust  
There's still so much to discuss and I tell you that we won't be  
rushed  
And I tell you that you can't trust much

You've picked the wrong time  
I'm on the silver line  
I'm hanging around  
You've picked the wrong time  
I'm on the silver line  
I'm hanging around, I'm hanging around

If I'm seeing all the things you do I'll find my reason to be with  
you  
If I'm being all the things you say the only reason comes away  
I'll find the reason when I say

You've picked the wrong time  
I'm on the silver line  
I'm hanging around  
You've picked the wrong time  
I'm on the silver line  
I'm hanging around, I'm hanging around
