

Stand

The Bees

You can choose not to listen
To the words in a lie
You can choose if you want to
Stand by my side, by my side

Stand by my side
When you're out in the open
Where the sea meets the land
If you choose to stop running
Stand by my side, by my side

Stand by my side

Living life without reason
And to know who you are
You can choose to stand by my side
Stand by my side
Stand by my side
