

## Back Where You Began

The Belle Brigade

Oh these days you look for judgement  
In the eyes of every stranger  
And you know it's the beginning of the end  
Because it spreads like a disease  
And the next thing you know  
You detect it in the eyes of your friends

And you pull out all the weeds  
From your yard  
And fool yourself to think that they are gone  
And you tell yourself you are gonna change  
And you lose your self control again  
And you're right back where you began

Well you look out of your window  
And lock eyes with a neighbor  
And try to simulate an honest grin  
Then you search for his name  
In the local directory  
And realize you don't know where to begin

And the seasons seem to change overnight  
But it stays the same inside  
And you tell yourself you are gonna change  
And you lose your self control again  
And you're right back where you began

And lord knows I try  
To understand what I see  
And I was born with these eyes  
Yet I overlook the meaning

And I separate the whites from the yolk  
And I listened every time you spoke  
And I tell myself I am gonna change  
And I lose my self control again  
And I'm right back where  
I'm always there  
I am right back where I began

Oh these days you look for judgement  
In the eyes of every stranger  
And you know it's the beginning of the end
