

# Lord Of It All

The Belonging Co

Jesus, I am willing even if it's not the way I planned  
I want what You want  
I lay down my opinions and offer every part of me again  
I want what You want  
I just want what You want

I don't need all the answers  
I've never been more sure You're in control  
You're in it all, Lord of it all  
And I will stay surrendered  
Even when it feels uncomfortable  
You're in it all, Lord of it all

Jesus, I am ready, I will not refuse the narrow road  
I'll go where You go  
I give You my desires 'cause I don't want to love it if You don't  
'Cause my life is not my own

I don't need all the answers  
I've never been more sure You're in control  
You're in it all, Lord of it all  
And I will stay surrendered  
Even when it feels uncomfortable  
You're in it all, Lord of it all  
You're in it all, Lord of it all

And at the end of the day  
You're the name above all names  
And when it all falls away  
You're still standing  
At the end of the day  
You're the name above all names  
And when it all falls away  
You're still standing

You're still standing, You're still speaking  
You're still working, You're still moving  
You're still standing, You're still speaking  
You're still working, You're still moving  
You're still standing, You're still speaking  
You're still working, You're still moving  
You're still standing, I know You're still speaking  
And You're still working, You're still moving

You are in control, God  
You are in control, God, yeah  
You're still moving, You're still moving  
You're still moving

I don't need all the answers  
I've never been more sure You're in control  
You're in it all, Lord of it all  
And I will stay surrendered  
Even when it feels uncomfortable  
You're in it all, Lord of it all

You're in it all, God

You're in it all  
Oh, even the earth sing  
Even the unspoken things, You see it all  
You know exactly what You're doing, oh  
You know exactly what You're doing  
So I put my trust in You  
No matter what, no matter what  
I put my trust in You, Jesus, oh  
So we align our hearts with Yours, right now  
We align our minds with Yours  
Oh, we align our will if Yours, ooh-ooh  
Have Your way, have Your way, have Your way

Your kingdom come, Your will be done  
Your kingdom come, right here, right now  
Your kingdom come, Your will be done, yeah  
Your kingdom come, right here, right now  
(In this room)  
Your kingdom come, Your will be done, yeah  
Your kingdom come, right here, right now  
Your kingdom come, Your will be done, yeah  
Your kingdom come, right here, right now, yeah  
Your kingdom come, Your will be done, yeah  
Your kingdom come, right here, right now, yeah  
Your kingdom come, Your will be done, yeah  
Your kingdom come, right here, right now, yeah

Have Your way, God, have Your way in our hearts  
Have Your way, have Your way, have Your way

And I don't need all the answers  
I've never been more sure You're in control  
You're in it all, Lord of it all  
And I will stay surrendered  
Even when it feels uncomfortable  
You're in it all, Lord of it all
