

I Know

The Beta Band

I know, I can't find you
I'll go to sit beside you
I need to remind you
That I still, I still love you

I know, I can't find you
I'll show everyone around you
That I need to be with you
I still, I still love you

But I know, I can't find you
I know, I can't find you
I know, I can't find you
I know, I can't find you
