

Roundabout

The Bets

Hands off the wheel
You were laughing in a way that made me feel
Like a demon flying straight out of hell
Now you're eyes on the road
With a cautious confident control
I would follow you wherever you go
Follow you wherever you go

Oh, up my sleeve you're pulling at the thread of me
I'll always be addicted to your energy
You and me, get tangled up in memory
Tangled up in memory
Tangled up in memory

But I loved you
Screaming through a roundabout
Yeah, I love you then like I love you now
And what will come is nothing to be scared about
'Cause I'll love you then like I love you now

Years added hue
To the canvas we were sticking to
You were colour, you were line, you were shade
Colour, you were line, you were shade
White painted walls
How are we going to fill them all?
I don't know it 'til my pen hits the page
Know it 'til my pen hits the page

Oh, up my sleeve you're pulling at the thread of me
I'll always be caught dragged into your jeopardy
You and me, get tangled up in memory
Tangled up in memory
Tangled up in memory

But I loved you
Screaming through a roundabout
Yeah, I love you then like I love you now
And what will come is nothing to be scared about
'Cause I'll love you then like I love you now

Never change, unless you do
Unless you want to, unless you want to
Never change, unless you do
Unless you want to, unless you want to
Never change, unless you do
Unless you want to, unless you want to
Never change, unless you do
Unless you want to, and if you want to

I loved you
Screaming through a roundabout
Yeah, I love you then like I love you now
And what will come is nothing to be scared about
'Cause I'll love you then like I love you now
I loved you
Screaming through a roundabout

Yeah, I love you then like I love you now
And what will come is nothing to be scared about
'Cause I'll love you then like I love you now

Never change, unless you do
Unless you want to
