

Rush Hour 3

The Beths

I know a place where we can go, yeah
(Night and day)
Just around the corner;
Cheap beer, rice wine, and soju
Don't tell me you don't wanna

Roll over once. Roll over twice
Roll off the couch, baby, and into my life

I know a place where we can go, yeah
Just around the corner
Won't you come along with me?
I wanna take you to my home, yeah, maybe watch a movie;
I just downloaded Rush Hour 3

I know that love can be so frightening
It doesn't have to be
(Night and day)
You need a full time sidekick and I'll do it for free

Roll over once. Roll over twice
Roll off the couch, boy, you're the apple of my eye

I know a place where we can go, yeah
Just around the corner
Won't you come along with me?
I wanna take you to my home, yeah, maybe watch a movie;
I just downloaded Rush Hour 3
