

## Bonfire

## The Big Moon

Take me to your leader  
Show me how you play  
I'll never go away  
Show me how your fingers  
Got in all those pies  
I'll never go away

We'll start a bonfire  
We'll start a bonfire  
We'll start a bonfire  
We'll start a bonfire

We'll start a bonfire  
To make the time fly  
Cos I'm so bored I could burn this whole town  
We'll start a bonfire  
To make the time fly by  
Cos I'm so bored I could burn this whole town

Crêpe Suzette and lemon  
That burning in your eyes  
There's nothing in your mind  
Oh, oh, oh, oh, oh!

We'll start a bonfire  
To make the time fly  
Cos I'm so bored I could burn this whole town  
We'll start a bonfire  
To make the time fly by  
Cos I'm so bored I could burn this whole town

And if you wanted to make me cry  
You might be the last  
And if you want me to wake, revive  
Blow smoke up my arse

We'll start a bonfire  
To make the time fly  
Cos I'm so bored I could burn this whole town  
We'll start a bonfire  
To make the time fly by  
Cos I'm so bored

Oh come inside, you're mine, I'll find you  
(We'll find you, we'll find you)  
Tailor chalk me up I'm fraying  
(We'll find you, we'll find you)
