

Nothing Without You

The Big Moon

Come around, I need to see
Your pretty face in front of mine
All about, he never took to you
I've got a leg to stand on

You know the truth
You know I'm nothing without you
You know I'm nothing
You know I'm nothing without you, whoa!

Cats can swim and dogs they can look up
It's really not astounding
But I can't do the simplest things
Without you standing by my side

You know the truth
You know I'm nothing without you
You know I'm nothing
You know I'm nothing without you

And I never wanted a different guy
You've got your secrets and I've got mine
Ooh, ooh, ooh baby
I, I, you know I need ya'
Ooh, ooh, ooh baby
I, I...

You know the truth
You know I'm nothing without you
You know I'm nothing
You know I'm nothing without you, woo!
