

# Murder

The Big Pink

Barely even scratched the surface  
Been watering it down from some high places  
Want to join in the chorus  
Sing it to a tune that you understand

I watched somebody that looked just like me  
And I went and asked him why he couldn't speak  
I want someone to tell him what to say

She called murder murder  
Such a killing game  
She called murder murder  
That I'd never change  
She called murder murder  
Never breaking the chain  
Always the same  
A killing game I won't change

Laying down on a knife edge  
There's no need to twist it cause it's all we have  
Steal a seat at the table  
Throw me out a line and show me where to land

I watched somebody that looked just like me  
And I went and asked him why he wouldn't speak  
And I want someone to show him how to say it

She called murder murder  
Such a killing game  
She called murder murder  
That I'd never change  
She called murder murder  
Never breaking the chain  
Always the same  
A killing game I won't change

She called murder murder  
Such a killing game  
She called murder murder  
That I'd never change  
She called murder murder  
Never breaking the chain  
Always the same  
A killing game I won't change
