

## Lifespan Of A Fly

### The Bird and the Bee

Oh, my children  
Oh, my loves  
You are not alone

I must go  
I'll miss you so  
My time has finally come

Oh, my lovers  
Oh, my lives  
Keep me in your minds

Don't despair  
Don't chase the air  
Where we once lived together

I have no regrets for anything I've done  
I feel like I've lived as good as anyone  
Remember me, remember me as best you can  
So I might live, outlive my lifespan

Here I will lie  
From where I sprung  
The circle is completed

The earth is warm  
How I transformed  
And now I am defeated

I have no regrets for anything I've done  
I feel like I've lived as good as anyone  
Remember me, remember me as best you can  
So I might live, outlive my lifespan
