

## Destroyer

### The Birthday Massacre

This is a fantasy, projecting the vanity  
A quiet delusion, controlling me  
It took the best of me  
Dissolving my sanity  
A silent intrusion, destroying me

When night expires across this town,  
I'll light a fire to burn it down  
The end is here and now  
I'll burn it down, I'll light a fire  
The end is here and now

Making wishes for me. Causing calamity  
The only solution, abandons me  
This is a tragedy. I meet with it gratefully  
It's my execution, and you're joining me

When night expires across this town,  
I'll light a fire to burn it down  
The end is here and now  
I'll burn it down, I'll light a fire  
The end is here and now

I'll burn it down  
The end is here and now  
I'll burn it down  
I'll light a fire  
The end is here and now
