

Broken World

The Black Heart Procession

I know that you, you are through with me
I know that you, you want to get rid of me
I know that you, you have a plan for me
I know that you, you want to torture me

And now we'll never meet again
Not in this broken world
We'll never meet again
Not in this broken world

This time with you felt so smooth
And I guess I, I never really knew
That you, you were through with me
And I guess that you, you were finished with me

Now we'll never meet again
Not in this broken world
Our time is through
In this broken world
We'll never meet again
Our time is through
