

## Gently Off The Edge

### The Black Heart Procession

there was a murder and a heart on some other road  
it was colored drinks but most of all this empty seat next to me  
and I felt life was getting older and something had to unfold  
and if there's a chance that I could be with you  
as a distant ring something in your mind  
and you would think of me when you are away  
there was a ring in a film dated 1863  
but dead men can't tell the truth of lies is what filled up his  
days  
and we feel life getting older as something has to unfold  
if there's a chance that I could be with you  
as a distant ring something in your mind  
and you would think of me when you are away  
listen to my call please come home  
come home come home cause I feel so alone  
you listen you listen but nobody's there  
you wait for a sign will they appear  
you know they'll say that I am the one
