

## On Ships of Gold

### The Black Heart Procession

on this day i was wondering just what made the sky  
blue  
i was thinking if i'd ever leave this place  
i saw the storm pass overhead along the sky  
you'll be gone on that day i know  
i'll be coming home on these ships of gold  
i never knew the lies you said were true  
and i never knew that all the ships had holes  
and i never knew this life was all for you  
i didn't know i'd ever get this far  
i never knew all these ships had holes  
i didn't know i'd reach this far to sink  
i didn't know i never knew  
i didn't know....
