

## Only One Way

### The Black Heart Procession

There's only one way  
there are lies then there is truth  
what hides between we did not know  
what we give away we soon forget  
there's only one way  
even though we've seen  
we trust the ways we bleed  
if only to waste  
we crush it in our hands  
then move away  
I see  
what we give away we soon forget  
we give up the search  
we'd as soon forget  
there's only one way  
only one way to your heart  
shock
