

Rats

The Black Heart Procession

I can't sleep tonight the devil's in the moon
So I walk the city streets
I take big steps to get nowhere
I look at the lights
There's nothing here for me
I can't see the stars in the sky
The buildings reach to high

I can't sleep tonight
I see rats
I can't stay alive
I see the pimps I see the whores
I see the thieves outside your door
I look down the alley where I left my life
I see rats in the sewer at night

She said if I leave I won't come back
She said if I leave I won't come back

I can't sleep tonight
I see rats
I can't stay alive
I can't stay alive from the devil's making room
I walk from the alley where I left my life
I see rats with blood in their eyes
I said if you leave don't come back
I said if you leave don't ever come back
I can't sleep tonight
I see rats
I can't stay alive
