Stitched To My Heart

The Black Heart Procession

My heart is bleeding rain drops, they're lonely rain drops when it used to shower all night long and in the well they'll find my heart, that I gave to you my heart is bleeding rain drops, they're lonely rain drops when it used to shower all night long and in the well they'll find my heart, that I gave to you and in the end they'll find her name, stitched to my heart I've been locked away
I'll keep it locked away
where they'll find no trace
they're lonely rain drops
I'll keep it locked away
where they'll find no trace
and in the well they'll find my heart, that I gave to you and in the end they'll find her name, stitched to my heart
