

The War Is Over

The Black Heart Procession

it won't be long
if this war was over
would you stay
would you lie beside me
if the war was over
would you stay
if the war was over
i could go anywhere i felt with you
if the war was over
i lie awake and dream of you
it won't be long till i'm home if you wait
now if this war was over
and the confetti skies were so filled with pride
if this war was over
i lie awake
do you lie and wait awake and dream of me
it won't be long till i'm home if you wait
now that the war is over
will you stay
will you lie beside me
the war is over
it is over
it is over for me
