

## Tropics Of Love

The Black Heart Procession

oh comfort you comfort you come from far away  
oh listen don't ever betray what you feel  
comfort you comfort you come from far away  
don't ever trust the things they say  
was it here where we left our hearts  
was it here in the tropics of love  
remorse, remorse with it everyday  
'cause i feel it that way  
don't ever barter with yourself  
comfort is why we lost our hearts  
was it here where we left our hearts  
in the tropics of love  
was it here in the tropics of love  
so remember, remember, remember i say  
when they've taken this comfort away  
i'll be there every day  
remember, remember, remember i say  
i'll be there every single day
