

# Unknown Brother

The Black Keys

Though I never met you  
And we spoke not a word  
Ill never forget you  
From the stories Ive heard  
For you unknown brother  
My baby's mothers pain  
Cause your soul is in heaven  
But your memory remains

Unknown  
Unknown brother  
Ill meet you someday  
Unknown  
Unknown brother  
We walk through fields  
Where children play

Your eyes shine bright  
When you were a kid  
Your sisters loved you  
And all that you did  
Big brother, big brother  
Don't worry a bit  
Your flame has not faded  
Since the day it was lit

Your life was joy  
Your mommas only boy  
And when the skies are blue  
Big brother  
Theyre blue for you

We will smile like pictures  
Of you as a boy  
Before you retired  
To Heavenly joy

Unknown  
Unknown brother  
Ill meet you someday  
Unknown  
Unknown brother  
We walk through fields  
Where children play
