

City of Soul

The Black Sorrows

Everybody loves that wicked beat
Lifts you off the floor onto the street
Bangin' like a million conga drums
Get ready for the fireworks when they come

I'm gonna join that teemin' crowd
Where music's playin' way up loud
Shakin' like a mighty thunderbolt

Honey let's rock sugar let's roll
I'll see you there tonight in the city of soul

All across the land it's party time
Summer's in the air and big bells chime
Revelry is on for young and old
So have another shot of liquid gold

It's a carnival of happy fools
With a treasure chest of pirate jewels
Boppin' to a screamin' saxophone

Honey let's rock sugar let's roll
I'll see you there tonight in the city of soul
Be with you tonight in the city of soul
I'm gonna hold you tight in the city of soul

Everybody loves that hungry beat
Lifts you off the floor onto the street
It's hummin' like a roarin' dynamo

Honey let's rock sugar let's roll
I'm gonna hold you tight in the city of soul
Honey let's rock sugar let's roll
I'm gonna make it right in the city of soul
Honey let's rock sugar let's roll
I'm gonna hold you tight in the city of soul
I'm gonna make it right in the city of soul
I'm gonna hold you tight in the city of soul
In the city of soul
