

## Evil Eye

## The Black Sorrows

I'm headin' off into the great unknown  
Leavin' my troubles behind  
I have to face it all alone  
I hope the temperature's kind

Somebody must've put a jinx on me  
I just can't break free, no no  
I got the voodoo and the evil eye  
No one can tell me why

If I go down to where the angels fell  
I can holler and shout  
You might call it Hades or hell  
But there ain't no way out

Somebody must've put a jinx on me  
I just can't break free, no  
I got the voodoo and the evil eye  
No one can tell me why

No use weepin' or feelin' sad  
I ain't sorry for the times we had  
Don't believe those lies you heard  
No I won't regret one single word  
Carve a few notches and leave your mark  
Cut the rope and dive into the dark  
It takes a whole long life to learn  
As the flames leap higher and burn

Somebody must've put a jinx on me  
Now I just can't break free

Well there ain't no use weepin' or feelin' sad  
I ain't sorry for the times we had  
Don't believe those lies you heard  
I won't regret a single word  
Well carve a few notches and leave your mark  
Cut the rope and dive into the dark  
It takes a whole long life to learn  
As the flames leap higher and burn

Somebody must've put a jinx on me  
Now I just can't break free  
I got the voodoo and the evil eye  
And I just can't break free

No one can tell me why
