

## Small Changes

The Black Sorrows

Small changes, hard lovin'  
The tide is turnin'  
Hey darlin, I've been callin' out your name  
But like a tear that's fallin'  
I can't get you back again  
I'm not pretending that I know where we went wrong  
But hey sugar, it's been a hard lovin'

Down the street  
Where the houses burn with every kind of neon flame  
They lay my heart to sleep  
But my soul's driftin' in the rain  
You know you got me  
On a street so wet with tears  
And I can't find no answers here

Tell me, does your heart race  
Like a river through the night, now its overflowing  
Drowning what you feel inside  
I remember what you said  
Good love can stand some rain  
The streets are shinin', and I can't get warm again
