

What Stephanie Knows

The Black Sorrows

There's a natural girl in a technical world
But she doesn't look out of place
Her irresistible smile keeps you still for a while
Until she catapults you into space
As you float up there in the thin night air
Searchin' for a spot to land
She's caressin' the wheel of a coupe de ville
There's things you'll never understand

Like time doesn't run it flows
That's what Stephanie knows

There's a casual girl in a clinical world
But she never seems to miss a beat
Her undeniable charm keeps her cool and calm
When others toil away in the heat
She's a dresden doll with no protocol
Who never has to say a word
But if it feels so right in the morning light
She'll be singin' like a hummingbird

There's a miracle inside a rose
That's what Stephanie knows
Time doesn't run it flows
That's what Stephanie knows

You might see her face in a sunset
As you glorify the close of day
You could be watchin' the waves
Crashin' into shore
And her lips are only inches away

There's a radical girl in a gullible world
She creates her own fortune and fate
If they dangle the line about water to wine
She doesn't wanna take the bait
You'll find her amblin' by with a glint in her eye
That promises the moon and the stars
As you make up your mind she'll leave you behind
On a rocket headin' straight for mars

It was fun for a while then it goes
That's what Stephanie knows
There's a miracle inside a rose
That's what Stephanie knows
Time doesn't run it flows
That's what Stephanie knows

What Stephanie knows
What Stephanie knows
That's what Stephanie knows
