

Impact

The Blackmail

Cut us off in time
To recede from your line
It has been something wrong or it
Feels untrue
Now we are tripping to the sky
The lips are pouring downstairs
They have been faded out so long
Break it down in smithereens
It's so far to where you have never been
It hits me like an impact
You'll see- i was just too weak for it i'm falling endlessly
I'm kicking out the madness

You'll see- and if it's fast enough let it stream to me
The voices are bound to fall
The words are crumbling in my head
There's no time to talk at all
It hits me like an impact...
It hits me like an impact
You'll see- i was just too weak for it i'm falling endlessly
I'm kicking out the madness
You'll see- and if it's fast enough let it stream to me
