## The Blackout

I've gone and said it  
Just so you know what's on my mind  
I walk away now  
This is over and there's no turning back  
The way you parade is such a crime  
I think about us  
Your pretty eyes still give me heart attacks

And all we have is all that's left and it's for the best

We've been here before  
We've fallen apart  
You knew that it was over  
You knew this from the start

We've been here before  
We've fallen apart  
You knew that it was over  
You knew this from the start

I've gone and said it  
Just so you know what's on my mind  
I walk away now  
This is over and there's no turning back  
The way you parade is such a crime  
I think about us  
Your pretty eyes still give me heart attacks

And all we have is all that's left and it's for the best

We've been here before  
We've fallen apart  
You knew that it was over  
You knew this from the start

We've been here before  
We've fallen apart  
You knew that it was over  
You knew this from the start

I'm the devil from above just you wait and see  
I can make any girl fall in love with me

I'm the devil from above just you wait and see  
I can make any girl fall in love with me

We've been here before  
We've fallen apart  
You knew that it was over  
You knew this from the start

We've been here before  
We've fallen apart  
You knew that it was over  
You knew this from the start

No-one can save us

No-one can save us  
No-one can save us  
No-one can save us

No-one can save us  
No-one can save us  
No-one can save us  
No-one can save us
