

## Toothache

## The Blood

You`ll see the dentist  
no matter who you are  
would you like an injection&  
the fear is similar

if poor, if rich  
if old, if young  
if weak, if strong  
you all will be same

open wide your mouth  
three fillings or four  
rinse out your mouth  
spittle red of blood

you see ...  
... you`ll get Toothache

- get Toothache
