## **The Blue Nile**

## Stay

I'm taking off this party hat The white situation is over A new situation begins The red guitar is broken To beat the drum of youth again Take too long to say

Stay, stay, stay
I will understand you
Stay, I will understand you

I write a new book everyday The love theme for the wilderness I fit the words together Candy girls want candy boxes She loves the music box forever She's crying on my shoulder

Stay, stay, stay I will understand you Yeah, yeah, yeah I will understand you

Summer girls in disarray Can be so free and easy now Well, we'll be free and easy

Stay, stay, stay
And I will understand you
Stay, I will understand you

I write a new book everyday A love theme for the wilderness A love theme

Stay, stay, stay, stay
