

# Lay Me Down and Die

The Blue Van

Drown, All your innocence, While you try, To make ammends, You forgot, To do it right, So just lay me down and die,

Fill my bed with roses, Close my weary eyes, Pass my troubles on to some one else, And lay me down and die,

I was dead, Before I was born, A better mind, Of a boy-child scorned, Till we's gone babe, I'll be set in stone, Lay me down and die,

Fill my bead with roses, Close my weary eyes, Pass my troubles on to someone else, And lay me down and die, Lay me down and die,

Aaahhh...

Fill my bead with roses, Close my weary eyes, Pass my troubles on to someone else, And lay me down and die,

Yeah!

Fill my bead with roses, Close my weary eyes, Pass my troubles on to someone else, And lay me down and die, Lay me down and die, lay me down and die.
