

## Drive Thru

The Bluetones

Sling your junk in the back of the car  
Shred the clues to whoever you are  
Throw all your money at a fallen star  
Roll a number that'll take us far and drive...

Trembling fingers give your game away  
What'd you do to make you nervous today?  
All that ju-ju was some other hombre  
Roll a number that'll take us away and drive  
And drive and drive and drive...

Drive on through to the nightfall  
You're sure to find something delightful  
If you drive and drive...  
Rear view mirrors and oddballs  
They've always been a bit of a downfall  
So you drive...

Double the pleasure is double the cost  
Double talk gets you double crossed  
Double your money now that you are the boss  
Roll a number that'll get us lost and drive  
And drive and drive and drive...

Drive on through to the nightfall  
You're sure to find something delightful  
If you drive and drive...  
Rear view mirrors and oddballs  
They've always been a bit of a downfall  
So you drive, you drive...  
You drive and drive...  
Yeah, you drive...  
You drive...
