

Nae Hair on't

The Bluetones

If your nights feel long and empty
And your heart grows tired at day
Don't try to keep it from me
Your eyes will always give you away

Alone, alone
It doesn't get any better
Alone

Hang on to your sense of wonder
Hang on to your gentle grace
Hold out for a great blue yonder
You'll find your resting place

Alone, alone
It doesn't get any better
Alone
