

AIR ONE truce 120 proof
SESH gone from the goggles to the bottom of my boots
Condensation on the bottom, carve my name in the frost
My heart been frozen since you went up north
Time checking in my head fuck a platinum pin
You was there in the start but will you be in the end
Dress rehearsal in a hearse, I'm a sharp dressed man
Best person on these verses 'til the day that I end

I'm countin' cards in Vegas, no 'rars in Vegas
I grab a Grabba Leaf blanket when I lay my head
I never fall asleep naked, keep runnin' ahead
Chainsaw in the shed, blunt darker than red
Redrum, red wine leakin' outta ya head
Life's a nightmare so I dream of death instead
(So I dream of death instead)

I'm in a whole different lane
Seein' life from a different angle
Blunt blinkin' like the main camera
Mini Glock but it do great damage
She low class but she got great manners
Wipe your feet bitch (yeah)

Yeah
Can I have another one of these
Uh
Pineapple uh
These little fruity drinks
These are, these are good
Keep the, keep the lady drinks comin' please
